Professional Summary

AI Security Engineer with **Mechatronics Engineering (81%)** and **B.E. CSE Cybersecurity** a hardware-to-software depth rarely found. **IBM Z Datathon 2025 National Runner-Up** (\$500 + IBM Mentorship), **2 IEEE publications**, 55+ certifications. Proven hands-on offensive security skills (TryHackMe Seeker 0x4) and cloud-native DevSecOps experience. Committed to building zero-trust, AI-driven security systems that detect and respond to threats at machine speed.

Focus Areas: **Cloud Security · Security Operations · Zero Trust · Identity & Access Management · DevSecOps**

Technical Skills

- **Languages:** Python, Java, C/C++, JavaScript/TypeScript, SQL, Bash, Rust
- **AI / ML:** TensorFlow, PyTorch, Keras, scikit-learn, OpenCV, HuggingFace, LangChain, JAX, U-Net, MobileNetV2
- **Cybersecurity:** Kali Linux, Metasploit, Burp Suite, Wireshark, Nmap, OWASP Top 10, Threat Detection, Incident Response, Zero Trust Architecture
- **Cloud / DevOps:** Microsoft Azure, AWS (EC2/S3/IAM/VPC), IBM Cloud (COS/Db2), IBM Z Mainframe, Docker, Kubernetes, DevSecOps, CI/CD, Prometheus, Grafana
- **Security Operations:** SIEM Concepts, Identity & Access Management, Entra ID (Azure AD), Vulnerability Assessment, Penetration Testing
- **Web / Backend:** FastAPI, Flask, Django, React, Next.js 14, Redis, PostgreSQL, SQLite, JWT/RBAC, Spring Boot, Node.js
- **IoT / Embedded:** Arduino, Raspberry Pi, ESP32, MQTT, Embedded C/C++
- **Mechatronics / Hardware:** PLC Ladder Logic, CNC, AutoCAD, SolidWorks, Robotics, HMI

Work Experience & Industrial Training

Cybersecurity Intern / Inplant Training

Jan 2026 (2 weeks)

RETECH Solutions Pvt. Ltd.

Chennai

- Performed penetration testing and vulnerability assessments; produced security audit reports with actionable recommendations.
- Applied offensive security techniques (Kali Linux, Metasploit, Burp Suite) in a real consulting environment.

Artificial Intelligence Intern

Jun – Jul 2024

RETECH Solutions Pvt. Ltd.

Chennai

- Developed ML workflows and deployment pipelines; work directly informed production-grade AI security projects (WAF AI, CSSS).

Industrial Trainee — Electrical & PLC Dept.

Mar – May 2021

Brakes India Pvt. Ltd., Padi

Chennai

- Designed industrial control systems; programmed Siemens PLC ladder logic for critical infrastructure.

Industrial Training — Quality & Stores Operations

Jul – Dec 2022

MK Auto Components / Suprajit Engineering

Ambattur / Kanchipuram

- Quality inspection (5 months) and inventory management (3 weeks) in manufacturing environments.

Featured Projects

Heart MRI AI — IBM Z Datathon 2025 (2nd Place National | \$500 + IBM Mentorship) github.com/Darkwebnew

Stack: Python, TensorFlow, MobileNetV2, IBM Z Mainframe, IBM Cloud, Grad-CAM

- Built high-performance CNN classifier on IBM Z Mainframe with <2s inference and explainable AI (Grad-CAM + Integrated Gradients).
- Designed secure cloud-native data pipeline using IBM Cloud Object Storage and Db2 with role-based access control.
- Won \$500 + 3-month IBM mentorship + LICC access (\$10K+) + IBM Bangalore Labs visit.

WAF AI — AI-Powered Web Application Firewall (IEEE Conference + Journal — Published) github.com/Darkwebnew/Projectwork1

Stack: FastAPI, Isolation Forest + Random Forest, Docker (8 containers), Prometheus, Grafana

- Designed and deployed AI-driven threat detection system achieving 96.7% accuracy for SQLi, XSS, CSRF, and zero-day exploits.
- Implemented zero-downtime, auto-scaling architecture with full observability (Prometheus/Grafana/Loki) and DevSecOps

best practices.

CSSS — Clinical Scan Support System (Final Year Project | O Grade | IEEE Accepted — 100/100/100)

github.com/Darkwebnew/Projectwork2

Stack: FastAPI, Next.js 14, MobileNetV2, JWT, OTP 2FA, RBAC

- Built full-stack clinical AI platform: 89.51% accuracy on 217,875 medical images with integrated Grad-CAM explainability.
- Implemented multi-factor authentication, role-based access control, and secure automated PDF report delivery.

HeartSeg AI — Cardiac MRI Segmentation (94.8% accuracy)

github.com/Darkwebnew/Miniproject

Stack: TensorFlow, U-Net, Keras, Flask, OpenCV

- Automated cardiac MRI segmentation; reduced clinical diagnosis time from hours to <60 seconds.

Gemma3 + JAX LLM Fine-Tuning — Google Tunix Hackathon (322 teams / 11,173 entrants) [kaggle.com/sri-](https://kaggle.com/sriramvks)

[ramvks](https://kaggle.com/sriramvks)

Stack: Gemma3 1B, JAX, TPU, RLHF, RLAIF

- Fine-tuned LLM with RLHF/RLAIF pipeline on TPU; implemented structured chain-of-thought reasoning.

Education

B.E. Computer Science & Engineering — Cybersecurity

2023 – 2026

Saveetha Engineering College, Chennai (Anna University)

CGPA: 7.59

- Core: Ethical Hacking, Cloud Security, Digital Forensics, Cryptography, Identity & Access Management, AI/ML.
- Semester 8 SGPA: 8.39. Notable courses: Theory of Computation (A), Communicative English (A), Physical Education (A+), Project Work II (O).
- Achievements: IBM Z Datathon 2025 National Runner-Up, 2 IEEE publications, 12+ production projects.

Diploma in Mechatronics Engineering — First Class with Distinction

2019 – 2022

TVS CPAT (T.V. Srinivasan Polytechnic), Vanagaram, Chennai

81%

- 3.5-year program with 3 industrial internships; C Programming Practical (100%), Final Year Project (95/100).

Key Certifications (55+ total)

- **Google Cybersecurity Professional** — 9 courses, Avg 96% Sep 2025
- **AWS Cloud Solutions Architect Professional** — 4 courses, 99–100% Mar 2025
- **Certified Ethical Hacking v12 (CEH)** — 4 courses, Avg 94% Aug 2025
- **Scrum Master Certification** — 4 courses, Avg 92% Aug 2025
- TryHackMe — Seeker 0x4 (Offensive Security Labs) | IBM Z Xplore Concepts
- J.P. Morgan SWE Virtual Experience (Forage) Sep 2024
- *Pursuing:* CEH Practical, AWS Security Specialty, OSCP

Research Publications

- **AI-Powered Web Application Firewall:** ML-based detection of SQLi, XSS, CSRF, zero-day attacks. *IEEE Conference + Journal — Published, 2025.*
- **Clinical Scan Support System (CSSS):** Deep-learning diagnostics (89.51% accuracy, 217,875 images) with explainable AI. *IEEE — Accepted 2025, Reviews: 100/100/100.*

Honors & Awards

- **IBM Z Datathon 2025 — 2nd Place National** | \$500 + IBM Mentorship + LICC (\$10K+) + IBM Bangalore Labs
- **Google Tunix Hackathon** — 322 teams / 11,173 entrants / \$100K prize pool
- **Yukthi CTF Hackathon** — Tamil Nadu Police, 2024 | **Smart India Hackathon 2025 — Shortlisted**
- **Gold Medal** — TN State English Proficiency Test (2012) | **Yoga 1st Prize** — Sports Olympic Federation of India (2017)
- **100% Attendance Certificate** — 2nd to 10th Standard (9 consecutive years)

Community & Security Research

- **Offensive Security Practice:** Active TryHackMe (Seeker 0x4) hands-on penetration testing, privilege escalation, and network exploitation labs.
- Provide technical guidance on digital security best practices to online communities.
- IBM Volunteer 2024 | Planning contributions to OWASP and open-source security tooling.
